

# THE WORKS

## *Easter Greetings*

### CATHY PORTER SCHOOL CHAPLAIN

This year's Easter service is about seeing in the dark. The Easter story in the Gospels is filled with people who felt that hope was hard to find, whenever they saw a glimpse it was seemingly taken from them. Yet for Christians around the world, even in the darkest circumstances it is a story in which we discover that the light of hope cannot be extinguished. Hope wins. And by faith the disciples then, and since see a light in the darkness that can never be overwhelmed. Jesus the light of the world, our certain hope. This Easter is a timely reminder to stop and look for hope, look for light in the darkness and hold onto it.

## NEWS

### A BRIGHT FUTURE FOR SIENNA

We are delighted to learn that Sienna in Year 12 successfully applied to participate in a virtual event hosted by the prestigious investment banking group Goldman Sachs. Sienna made her application during one of our Post 18 research tutor sessions in school. She spent time with interns and was able to meet an investment banker who gave useful advice on getting a career in investment banking. Sienna said,

*"I found this all really helpful as it gave me an insight into what I want to do in the future and meeting people in the industry was really useful as they gave us loads of advice on how to be successful"*

### EASTER FUN IN THE JUNIOR SCHOOL

Issi and her Junior School friends have been busy making little Easter chicks and baskets filled with goodies to take home and enjoy. Lucky them!!

To raise awareness of the Brain Tumour Research "Wear a Hat Day", on Friday 26<sup>th</sup> March, the children were invited to wear hats into school and to donate towards this charity. The children were given wristbands, balloons, stickers and metal pin badges to sell. They have raised the magnificent sum of £101, which will be sent to the Brain Tumour Research charity. Well done to all the Junior School Children.

## TALENTED YEAR 11 FOOD & NUTRITION STUDENTS

Big congratulations to all year 11 Food Preparation and Nutrition students for producing a range of outstanding dishes this term. This has shown resilience and dedication and we couldn't be prouder! See their amazing outcomes below:

## YEAR 7 & 8 GEOGRAPHERS CONSIDER THE WORLD'S CHALLENGES

Excerpts from Freya and Rebecca's excellent work on the challenges of a youthful population in Gambia and the patanal ecosystem in South America. Well done on your inciteful and thought provoking research and writing.

### Freya, Year 7

"Many issues are created by Gambia's youthful population, including the lack of money and resources which are required to send children to school, feed them sufficiently, and provide them with healthcare. Another problem is that significantly enlarged families can lead to over-crowded conditions, with some people having to share a room with up to 9 others. However, it is not just people who are impacted by the ever-growing population – the environment is too. In Gambia, as many can't afford electricity for their homes, trees are an extremely popular option instead. They are cut down before being used for food preparation and to create warmth. The more people who need food and heat, the more trees will be killed. It is predicted that within the next 50 years, the entirety of Gambia's forests could be gone."

### Rebecca, Year 8

"Due to land use changes and loss, flora and fauna are losing their habitats and being put under threat. Larger predators that could have survived are losing their prey and source of food and due to global warming and unpredictable weather, plants are unable to survive in those conditions. Global warming has caused more natural disasters, such as fires that have wreaked havoc on the habitats of animals and in 2020, a quarter of the Pantanal burned which is an area three times bigger than London"

YEAR 9 SPANISH

Year 9 French students learning about Paris

**TRUE OR FALSE**

1.) There are 28 bridges that go through Paris

2.) The French cut the cables of the Eiffel Tower during WW2 to stop Hitler and the Nazis getting to the top

3.) Versace, Louis Vuitton, Dior, Givenchy, Christian Louboutin and Chanel all originated in Paris.

4.) To obtain a taxi driver license in Paris, you have to pay 100,000 euros

5.) The original Statue of Liberty was built in Paris

YEAR 8 ENGLISH

An extract below from Amelie and Tamsin's diagram, right on the structure of "Raymond's Run".

**Exposition:** Squeaky looks after her older brother, who the author describes as 'not perfect'. People make fun of them. Squeaky is a small, skinny, weak little girl – although she is the fastest runner in her town. She runs faster than her dad.

**Resolution:** Squeaky has won the race and she wanted to become a famous runner. She also thinks about retiring as a successful runner and for her and her ex-best friend to be friends again and to train her brother to be a sports champion and a runner just like her.

CREATIVITY IN DESIGN AND TECHNOLOGY

**SketchUp Outdoor Furniture Task -**

<p><b>Wooden:</b> Consider an when you sit on it, the people either side of you are not in your vision which is good for people who don't want attention. Or if you sit on the inside you will feel very close to your family and social. Lots of people can sit down on it. Does not use any materials that are bad for the environment. It would be awkward to be down on due to its circular shape.</p>	<p>This is my favorite design. The wood colour looks really nice. The lights underneath make it look really modern and contrast with the wood well. The planks add to the contrast in a really good way. People can sit down next to each other and it can fit a lot of people on without anyone's legs being crunched. The gaps in the wood will let water easily drain out. It's good for the environment since it uses wood. Apart from just being used as a bench it is also used to have plants look nice and just add to the aesthetics to the area. The wood would have to be treated often however to make sure it does not rot in the rain. There are no arm rests on the bench which means that people could lay on it.</p>
<p><b>Wooden and Metal:</b> It has gaps in the metal and wood so that water can drain through and not build up. Not many people can sit on it and the seat on the other side of the plant looks a bit too small. The plant adds a bit of aesthetic to the bench. The angular shapes gives it a modern appearance and the hand rest prevents people from trying to lay down on it.</p>	<p><b>Stone:</b> The slopes do not really serve any purpose other than the looks. People might try and lie down on it which would be space. You cannot sit on the slopes either so only 2-3 people could sit on it. Water would not drain away off it and the backrest is too low down to be comfortable. It does not use too much material however while appearing modern.</p>
<p><b>Concrete:</b> Allows four people to sit down. Optimum resources very well by having only one leg which saves material. Table would be too thin for two people to sit at and leg space would also be compromised. Flat surface so water could sit on it and not run off. People may sit on it incorrectly by leaning against the side.</p>	<p><b>Stone:</b> Designated seating spots for 3 people and it would be uncomfortable for people to lie down on which is good. Has a modern get modern look. Water could sit on it however making it wet. It looks a little bit too down to the ground. People of varying shapes and sizes may find it uncomfortable to sit on.</p>
<p><b>Concrete:</b> Unique shape that looks interesting. It looks like 5 people should be able to sit down on it but it is unclear where you should actually sit down on it. If it rained then the water would sit on top of it because it is flat. It uses a lot of material compared to other benches which is not as good for the environment. The bench looks asymmetrical which could be considered modern.</p>	<p><b>Metal:</b> The table is just being moved at the table but then your legs would all just get pressed together. Water would be able to drain out of it easily and it would not remain too wet after rain. It could be created using recycled metal which is good for the environment. It is not as visually appealing compared to some of the other designs but it has better functionality. The table is rather small so sitting could be a pain and since the table also is made out of pipes, cups would not be very stable on it.</p>

Positivity in a Tin

DOCTOR SAM BARNES SUPPORTS OUR NHS FRONT LINE

We are happy to share with you the experience of one of our former students. Sam Barnes, who left the Sixth Form in 2013, and is now Doctor Sam Barnes. Sam graduated from Medical school in 2019 and has been a Doctor working at Leicester General hospital since then. Sam has been very successful and was working in treating Parkinson's Disease, as well as being a teaching Fellow at the University of Leicester.

For the past several weeks, Sam has redeployed and been working on the front line, constantly kitted out in PPE to treat Covid-19 patients in intensive care. As if we weren't already proud of Sam, he has taken time out of his schedule this morning, to deliver a Teams Presentation for our Year 12 students considering a future career in Medicine. Sam is just as friendly and just as modest as he always has been!

## KEY EVENTS

### KEY DATES:

**Friday 23rd April 2021:**  
Spring/Easter Concert, 7pm, School YouTube Channel

**Thursday 29th April 2021:**  
Year 10 parents evening, 4.00pm-6.30pm

#### EASTER HOLIDAY

**Friday 2nd April to Friday 16h April**  
Students return to school  
**Monday 19th April**

### WELCOME TO VICKY OUR NEW PARENT GOVERNOR

Hello, my name is Vicky Wicks. I am really pleased to be able to introduce myself as the new parent governor for the Minster School. With three children at the school in Years 13, 10 and 8, I feel I am well placed to offer support and guidance to Mr Chaloner and his team. I have extensive experience of governance having been a governor and chair of committee at Bleasby Primary School and I am also a secondary school teacher (in my normal job!). My passion lies in education, having taught in a wide variety of schools over the last 25 years.

I currently teach Economics at Nottingham High School where I am also heavily involved in the management of the Sixth Form. I can't wait to get stuck in to governor's life at the Minster School and look forward to the many visits to the school that I hope I will eventually be able to make.

### SOUTHWELL MINSTER PHOTOGRAPHY COMPETITION

'Unlocking Nature's Secrets' Inspired by the Leaves of Southwell project, you are invited to enter our photography competition and share your own special lockdown discoveries. All ages welcome! Please visit the website for full details: <https://www.southwellminster.org/photo-competition/>

Facebook: @MSPTASouthwell

If you're an Amazon shopper, there are two ways to support our school without it costing you a penny. If you use the smartphone app, it's really straightforward. On the app, go to settings, which is the three horizontal lines in the top left corner, by the Amazon logo. Scroll down to 'settings', then 'Amazon Smile'. Please chose 'Southwell Minster School Parent Teacher Association' and then select 'ON' next to 'generating donations'. If this last step isn't completed, it won't work. Thereafter, every time you use the app, Amazon will donate to our school.

Conversely, if you're Amazon shopping at a laptop/PC or browser, then please go to <https://smile.amazon.co.uk/ch/516332-0>. This enables you to select our school. Thereafter, you'll need to shop through <https://smile.amazon.co.uk> rather than using the regular [www.amazon.co.uk](http://www.amazon.co.uk) website. Basically, you'll have to type 'smile.' instead of 'www.' before the rest of the amazon.co.uk website.

If you haven't signed up to support our school yet with Co-op fundraising, please could we ask you to find five minutes to pick us at:

<https://membership.coop.co.uk/causes/42636>. It doesn't cost

a penny and, with your help, we've raised around £1500 just by clicking a button. If you use a smartphone, download the Co-op app and then you'll always have your membership card and money saving vouchers with you. You can choose our cause on the app's bottom navigation bar, under 'membership' then 'skills'. Either way works and our pupils get a donation every time you shop.

Did you know that whenever you buy anything online - from your weekly

shop to your annual holiday - you could be raising a free donation for MSPTA? There are nearly 3,000 retailers including Amazon, Waitrose, John Lewis, Aviva, the trainline and Sainsburys, who will donate a percentage of the amount you spend to MSPTA to say thank you for shopping with them: <https://www.easyfundraising.org.uk/causes/msptasouthwell/>
